

Assembling Guide

Each B.J.Doll is connected using three pieces of tension string. **Elastic Cord I** is used to connect and bend the neck with the torso and **Elastic Cord II** is used to connect and bend the arms and wrists. **Elastic Cord III** is used to connect the lower parts legs and ankles. Your doll will arrive in unassembled state.

※ When you assemble the Doll, Work is easy if you use an exclusive puller of BJD or fine wire.

● Direction of Elastic Cord going

➔ Direction of Elastic Cord pull out
